

65,000ha  
 of High Conservation Value  
 (HCV) Tropical Peat Forest

An area almost the size of  
 Singapore

THE CARBON VALUE OF THE RIMBA RAYA BIODIVERSITY RESERVE:

130m tonnes of total avoided emissions over 30 years = 4.5m tonnes of avoided emissions annually

THAT'S THE ANNUAL EQUIVALENT OF:

 <b>39,544,817,580</b> Miles driven by an average passenger vehicle	 <b>218,429</b> Tanker trucks' worth of gasoline	 <b>23,759,239,704</b> Miles flown in a commercial airplane	 <b>2,436,503</b> Homes' electricity use for one year	 <b>1,000,000</b> Cars removed from the world's highways
 <b>5,236,375</b> Tons of waste recycled instead of landfilled	 <b>1,856,644,537</b> Gallons of gasoline consumed	 <b>87,870</b> Railcars' worth of coal burned	 <b>4.8</b> Coal-fired power plants in one year	 <b>38,200,988</b> Barrels of oil consumed

AND THE SEQUESTRATION EQUIVALENT OF:

 <b>15,618,970</b> Acres of U.S. forests	 <b>427,616,379</b> Tree seedlings grown for 10 years
